The Waves

Waves at the Waterfront District showcases a crisp clean architectural design that stands tall in front of the 1.8km boardwalk along the waterfront. The tower's unique facade is enhanced by a wave-shaped ripple running across the 35-storey tower with uninterrupted 360° views of Dubai's skyline. The vertical emphasis of the two acute corners lead the eye to a light-weight floating roof giving it a serene sense of breeziness and lightness.
